Turdus ustulatus

45 Species

Scarf Duck. 75111/2

Fort Adams, R. I. Jan. 13, 1900.

480; 810; 221; 77; cul., 44; greatest width
of bill, 24.5; tarsus, 39; gape, 68;
head, from frontal feathers, 57; tip of bill
to occiput, 100 mm. Bill bluish gray,
with dusky area on nail & mandible,
& feet, pale bluish gray, dusky on joints and
webs. Iris greenish yellow.

Oldsquaw Noddy.

Fort Adams, R. I., Jan. 14, 1900.

410; 725; 215; 86; cul., 25.5; greatest width
of bill, 18; head from frontal feathers, 56;
bill to occiput, 80; tarsus, 34; gape, 53 mm.
Iris hazel. Bill dusky plumbeous, becoming
greenish on side of maxilla and at base of ^{rami} of
mandible; intermaxillary membrane, flesh-color.
Feet grayish flesh-color, with sides of webs and
joints blackish.

44. Melanerpes aurifrons (Wagl.).
Golden-fronted Woodpecker. ♀ ad. Fort Clark, Texas. Dec. 29, 1897.
245; 437; 133; 79; 29; 24; 27 mm.
Shot on the wing by collector.
45. Mimus polyglottos (Linnaeus).
Mockingbird. ♂ im. Fort Clark, Texas. Dec. 18, 1897.
266; 372; 118; 135; 15; 36; 28 mm.
46. Cardinalis cardinalis canicaudus Chapman.
Gray-tailed Cardinal. ♂ ad. Fort Clark, Texas. Dec. 18, 1897.
223; 300; 97; 110; 19; 24; 24 mm.
47. Cardinalis cardinalis canicaudus Chapman.
Gray-tailed Cardinal. ♀ ad. Fort Clark, Texas. Dec. 18, 1897.
232; 305; 97; 117; 19; 26; 25 mm.
48. Arremonops rufivirgata (Lawrence).
Texas Sparrow. ♂ ad. Fort Clark, Texas. Dec. 18, 1897.
168; 223; 69; 73; 14; 24; 20 mm.
49. Amphispiza bilineata (Cassin).
Black-throated Sparrow. ♀ ad. Fort Clark, Texas. Dec. 18, 1897.
144; 215; 67; 65; 11; 19; 17 mm.
50. Amphispiza bilineata (Cassin).
Black-throated Sparrow. ♂ ad. Fort Clark, Texas. Dec. 18, 1897.
145; 218; 68; 65; 11; 19; 17 mm.
51. Ceryle alcyon (Linnaeus).
Belted Kingfisher. ♀ ad. Fort Clark, Texas, Dec. 23, 1897.
340; 560; 159; 108; 58; 12.5; 26 mm.
52. Lanius ludovicianus Linnaeus.
Loggerhead Shrike. ♂ ad. Fort Clark, Texas. Dec. 23, 1897.
230; 323; 102; 98; 16; 27; 24 mm.

53. Lanius ludovicianus Linnæus. 30, 1897.
 Loggerhead Shrike. ♂ ad. Fort Clark, Texas Dec.
 233; 330; 103; 110; 16; 28; 25 mm.
54. Sturnella magna hoopesi Stone.
 Rio Grande Meadowlark. ♀ ad. Fort Clark,
 Texas. Dec. 30, 1897.
 235; 375; 117; 68; 28; 35; 29 mm.
55. Mimus polyglottos (Linnæus).
 Mockingbird. ♂ ad. Fort Clark, Texas. Jan. 22, 1898.
 257; 357; 113; 117; 16.5; 34; 28.5 mm.
56. Pipilo maculatus arcticus (Swainson).
 Arctic Towhee. ♀ ad. Fort Clark, Texas. Jan. 29, 1898.
 210; 280; 85; 98; 14.2; 27.5; 28 mm. Iris red.
57. Pyrhuloxia sinuata texana Ridgway.
 Texas Cardinal. ♂ ad. Fort Clark, Texas. Jan. 29, 1898.
 220; 305; 95; 107; 16; 26; 25 mm.
 Bill, brownish yellow, tinged with orange below.
 Legs and feet, brown; claws dusky.
58. Sturnella magna hoopesi Stone.
 Rio Grande Meadowlark. ♀ ad. Fort Clark, Texas. March 19, 1898.
 234; 383; 117; 78; 28; 39; 33 mm.
59. Callipepla squamata (Vigors).
 Scalded Partridge. ♂ ad. Fort Clark, Texas. March 19, 1898.
 275; 392; 117; 90; 13; 34; 36 mm.
60. Zonotrichia leucophrys (Forster).
 White-crowned Sparrow. ♀ ad. Fort Clark, Texas. March 19, 1898.
 180; 257; 82; 76; 12.2; 23; 22.8 mm.

61. Thryothorus bewickii leucogaster Baird.

Baird's Wren. ♂ ad. Fort Clark, Texas. March 19, 1898.
142; 187; 57; 59; 14; 20; 18.2 mm.

62. Auriparus flaviceps (Sund.).

Verdin. ♂ ad. Fort Clark, Texas. March 19, 1898.
119; 181; 55; 52; 8.2; 17; 14.2 mm.

63. Auriparus flaviceps (Sund.).

Verdin. ♀ ad. Fort Clark, Texas. March 19, 1898.
118; 177; 55; 53; 9; 17; 14 mm.

64. Polioptila caerulea (Linnaeus).

Blue-gray Gnatcatcher. ♂ ad. Fort Clark, Texas.
March 19, 1898. 126; 172; 54; 55; 10; 17; 12.2 mm.

65. Polioptila caerulea (Linnaeus).

Blue-gray Gnatcatcher. ♂ ad. Fort Clark, Texas.
March 19, 1898. 123; 170; 54; 54; 10.4; 17.8; 12 mm.

66. Helminthophila celata (Say).

Orange-crowned Warbler. ♀ ad. Fort Clark, Texas. March 19, 1898.
127; 189; 61; 51; 11; 18; 15 mm.

67. Chondestes grammacus

Lark Sparrow. ♂ ad. Fort Clark, Texas.
April 2, 1898. 179; 290; 92; 81; 12; 21; 19.5 mm.

68. Carpodacus mexicanus frontalis (Say).

House Finch. ♀ ad. Fort Clark, Texas. April 2, 1898.
160; 244; 78; 66; 11.6; 17; 19 mm.

69. Pyrrhuloxia sinuata texana Ridgway.
Texas Cardinal. ♂ ad. Fort Clark, Texas. April 2, 1898.
215; 297; 92; 102; 16; 25; 24.5 mm.
70. Myiarchus cinerascens (Lawrence)
Ash-throated Flycatcher. ♂ ad. Fort Clark, Texas. April 2, 1898.
227; 352; 104; 103; 19; 26; 18 mm.
71. Milvulus forficatus (Gmelin).
Scissors-tailed Flycatcher. ♂ ad. Fort
Clark, Texas. April 2, 1898.
370; 400; 129; 124; 17; 20; 21 mm.
72. Mimus polyglottos (Linnæus).
Mockingbird. ♂ ad. Fort Clark, Texas. April 2, 1898.
272; 370; 120; 134; 17; 34; 30 mm.
73. Progne subis (Linnæus).
Purple Martin. ♂ ad. Fort Clark, Texas. April 18, 1898.
209; 404; 145; 82; 11.7; 15.5; 22 mm.
74. Progne subis (Linnæus).
Purple Martin. ♂ im. Fort Clark, Texas. April 23, 1898.
202; 410; 150; 82; 13; 15; 22 mm.
75. Molothrus ater (Boddaert).
Cowbird. ♂ ad. Fort Clark, Texas. April 23, 1898.
196; 326; 106; 81; 17; 27; 24 mm.

76. Mezascops aur tricolopsis (Wagler).
Texas Larch Gull. ♀ ad. Fort Clark, Texas.
April 26, 1898. 138; 588; 170; 87; 14; 35; 32
Iris yellow. Parent of 2 eggs. mm

77. Icterus spurius (Linnaeus).
Orchard Oriole. ♂ ad. Fort Clark, Texas. April 26, 1898.
177; 246; 78; 78; 15; 20; 19.2 mm.

78. Icterus spurius (Linnaeus).
Orchard Oriole. ♀ ad. Fort Clark, Texas. April 26, 1898.
178; 248; 78; 76; 14.8; 21; 20 mm.

79. Piranga rubra (Linnaeus).
Summer Tanager. ♀ ad. Fort Clark, Texas. April 26, 1898.
203; 302; 98; 84; 18.6; 19.5; 18.4 mm.

80. Myiothorus ludovicianus lomitensis Sennett.
Lomita Wren. ♂ ad. Fort Clark, Texas. April 26, 1898.
156; 216; 65; 56; 18; 22; 19 mm. Parent
of No. 81.

81. Myiothorus ludovicianus lomitensis Sennett.
Lomita Wren. ♂ juv. Fort Clark, Texas.
April 26, 1898. Progeny of No. 80.

82. Petrochelidon lunifrons (Say).
Hill Swallow ♂ ad. Fort Clark, Texas. April 28, 1898.
A breeding bird. 148; 307; 110; 57; 8; 13.5; 16 mm.
83. Passerina ciris (Linnæus).
Painted Bunting. ♂ ad. Fort Clark, Tex. May 5, 1898.
153; 234; 75; 62; 11; 18.5; 18 mm.
84. Passerina ciris (Linnæus).
Painted Bunting. ♂ im. Fort Clark, Texas.
May 5, 1898. 150; 231; 71; 59; 11; 19; 19 mm.
85. Geothlypis macgillivrayi (Aud.).
Macgillivray's Warbler ♂ ad. Fort Clark, Tex.
May 5, 1898. 147; 203; 64; 58; 11.5; 21; 18 mm.
86. Aegialitis vocifera (Linnæus).
Kildeer. ♂ ad. Fort Clark, Texas. May 5, 1898.
268; 545; 178; 115; 19; 39; 28 mm.
87. Melospiza forficatus (Gmelin).
Scissor-tailed Flycatcher. ♀ ad. Fort Clark, Tex.
May 5, 1898. 288; 368; 116; 164; 18; 17.5; 20 mm.
88. Actitis macularia (Linnæus).
Spotted Sandpiper ♀ ad. Fort Clark, Tex. May 7,
1898. 204; 346; 111; 57; 24; 23; 23.5 mm.
89. Progne subis (Linnæus).
Purple Martin. ♀ ad. Fort Clark, Tex. May 7,
1898. 203; 408; 150; 80; 11.2; 15; 20.5 mm.
